RICHMOND CALIFORNIA, SUNDAY MORNING, NOVEMBER 28, 1915. NUMBER 256.

WILL SHIP MATERIAL FOR ROADS ACROSS ON LOCAL FERRY SYSTEM

The construction of the state and county highways in Marin county will be greatly expedited and will result in a great saving of money as the result of the petition by Mose Moch, superintendent of the Richmond-San Rafael ferry system for a permit to operate a special trip between this county and Marin shore for the purpose of carrying the asphalt for the paving of the roads.

The Standard Oil company here has secured the contract, which amounts to many thousands of dollars and faced the problem of shiping the hot asphalt in tank cars by way of Martinez and across to Benecia, or by the way of Oakland to San Francisco and thence across to the Marin Shore.

Moch will secure a special license and insurance policy to make the special trip.

The anouncement is of extreme importance to this city. Heretofore, the long trips encessary to carry the material entailed considerable extra expense. The new line will reduce the expense and will greatly facilitate the rapid work on the roads.

RICHMOND READERS ARE FAVORABLE TO FICTION JACK LONDON FAVORITE

"Judge a man's career by the books he reads."

This may not be anm ancient adage but somewhere in the past everyone has heard that remark. Of the 10,000 books circulated monthly, 5,000 or fifty per cent are books classed as fiction. These include everything from love stories in which the hero always marries the heroine to stories of the queer happenings which befall some misguided journalist.

When interviewed by a Daily News representative Miss Delia M. Wilsey, the charming and popular city librarian was asked: "And what sort of a play does Old Diamond Dick; Dead Shot Pete and other tales dear to the heart of the school boy receive."

A look of painted surprise spread over Miss Wilsey's countenance. Apparently our ignorance on library subjects was just a little too wonderful to pass without comment "We do not carry those sort of books in the library," she said.

So any lad desiring to secure a copy of these thrilling tales should not wend his way library ward in search of these brain hallucinations.

Jack London apears to be the most popular fiction writer among local residents. Although Bower, Bindloss, Porter, Henry and Wister are also popular.

William Shakespear would probably feel slighted here to see the number of his articles taken out during the month.

At present of the other fifty per cent, war articles are getting considerable attention. A number of Exposition books are also eagerly sought.

Each month 500 new books are added to the library which is now one of the most complete and modern in the state.

THREE CENTURIES AGO

Governor Bradford, the second governor of Plymouth Colony first conceived the idea of Thanksgiving, two hundred and ninety-four years ago—one year after the Mayflower had landed on the coast of Massachusetts.

Can you realize what hardships and misfortunes those early pioneers had undergone—that since then a great nation has been formed, not however, without great difficulty.

Men as well as nations become strong only by overcoming difficulties and by making preparation for the future. In this way opportunities can be seized and not allowed to slip away because of unpreparedness.

This is Thanksgiving week. Will you get the real Thanksgiving spirit by resolving to make every day a brighter one, thereby making every future Thanksgiving a happier one.

Begin today to secure your future and your happiness by saving more money than you have been in the habit of doing, so that when the time comes to build a home or make a good investment you will be ready.

COUNTY POWDER PLANT CENTER OF DISSENTION AMONG EMPLOYEES, SAID

Employees at the Du Pont Nemours powder plants at Giant and Pinole are up in arms, and according to information from a fairly authentic source a strike will soon be called by the employees of the company. The dissention surrounds the new official placed in charge of the plant. It is claimed that to satisfy own personal ambition the new official is making it impossible for the girls of the plant to earn their usual salary, involving a cut of thirty three and a third per cent.

A communication signed by a special committee of employees has been sent to the general offices of the powder company in Baltimore and, it is said unless favorable reply is received, drastic steps will be taken by the employees.

The breach which has been opened between the employees and the new ofirial is a serious one and it is expected that immediate action will be taken by the powder company.

The new plant head is said to be interested in a new shell rolling device. This device is responsible, it is said for the reduction of wages of the employees.

Several protests were made to the local department, but these it is said were ignored. It was then decided to appeal to the main office.

NEW NICHOLL TRACT IS VALUED AT NEARLY TWO MILLION: IS TO SELL

Announcement was made yesterday by John Nicholl, that he is receiving bids from realty operators for the subdivision of the seventy acre tract at Twenty third street and Macdonald avenue which will be directly opposite the city hall on the burg tract.

The tract subdivided would allow aproximately 1,400 lots 25 feet by 100 feet. Selling at a conservative figure of $1,000 a lot, the property would bring $1,400,000.

It is understood that realty men place a value of $2,000,000 on the property.

"The property goes to the operator who can offer me the best proposition. J. H. T. Watkinson who has been a factor in the sale of the Civic Center tract across the street has returned from the east. I do not know whether he will handle it or not. Realty people who are very close to George S. Wall have consulted me on thit, I cannot say whether Mr. Wall is interested or not. It is possible that Burgy Brothers who made such a success of the other side of the street will have the agency," stated Nicholl.

UNABLE TO DECIDE IF WIFE SHOULD GET COIN

The state accident commission has as yet been unable to decide whether the widow of the late A. G. Percy, former local police officer killed last February while acting as night watchman at the Aretic Ice and Cold Storage company, is entitled to any money from the state compensation insurance fund.

F. B. Connell, special investigator for the commission was in Richmond yesterday gathering information on the matter. Mrs. Percy had instituted divorce suit against her husband. The suit was still pending when Percy was killed.

BETH PALM TO VISIT

Beth Palm who will be remembered as the little lady with the big line of human hair goods, who two years ago worked in Jones & Adkison's windows making switches and other hair adornments for our ladies' head dress, is here again for a short stay with the same people in the same window, for the benefit of the same and other ladies of Richmond.

Beth Palm has just arrived from Chicago with the largest line of hair pieces ever shown on the Pacific coast—a switch for every lady in Richmond. She makes to ordar anything one desires in hair goods either out of my ladies combings or from cut hair that is carried in this extensive stock.

Watch Jones, Adkison's window for the interesting demonstration.

Richmond has a clean bill of health.

Health Commissioner Charles R. Blake made this announcement yesterday. Diphtheria has been eliminated completely, Blake yesterday superintending the fumigating of a home near the San Pablo quarry, the last of the Diphtheria cases.

No new cses of typhoid fever have been reported for several weeks are the few ill from the disease are all reported rapidly recovering.

"Health conditions in Richmond are the best in many years," said Dr. Blake last night. "Practically every disease breeding place has been eliminated and the department is working hard to eliminate any that may possibly have been overlooked. Our tests of all of the various restaurants of the city have shown the milk being sold to be of the highest standard."

This report indicates that Richmond excells in business and as a "health resort."

A DUBIOUS UNDERTAKING

Henry Ford, father of the machine made famous in song and story has made elaborate plans for peace by Christmas. The idea is a good one and could it be put into effect would make Ford the only real hero of the terrible conflict now raging in Europe. Ford has chartered a steamship and has gathered and is gathering scores of prominent personages to aid him in his undertaking.

However it does not seem likely that his effort will meet with success. The hatred existing between the several countries at war cannot be obliterated by mere words. Despite the fact that a majority of the nations in the war are near bankrupt and that thousands of men are daily being killed and maimed, the men at the head will not agree to in all probability to end the war, leaving conditions practically as they were at the beginning.

In the writer's opinion, no nation will agree to peace unless it can be recompensed in a piece of land or money. This would necessitate a loss to an ally of the belligerents, making it appear an almost impossible task to secure the results decreed by Ford and the entire civilized world.

Promises have been made with a lavish hand. To enter the war countries have been promised additions to their realms. These promises cannot be made good unless one of the belligerents agrees to forfeit that land.

Under these conditions, it hardly seems likely or possible that the war can be ended so soon. This apears to be a war to the finish.

We wish Ford success in his undertaking but we are dubious whether he will be successful.

HOW ADVERTISING HELPS SALES

I am going to put down one half of 1 per cent, on sales for advertising, or $150 per year, says C. M. Johnson, of Sioux City, Iowa, in a letter to the Modern Merchant. The reason I put it that way is because I think it a good plan to appropriate a certain amount for advertising every year. I think you will probably spend it more judiciously and get more advertising value out of it than if you advertise without any idea of what it is costing you during the year.

And perhaps one half of 1 per cent I don't believe is enough. When my sales fall down from what they were the year before I increase my advertising appropriation the next year, and then if they come up and stay there, I let the appropriation stay there. It is a good thing to have your sales right before you all the time and increase your advertising as the sales fal ldown. If you watch you should be able to use it as a lever and boost your sales back to where they belong.

Some merchants may say, "I do not need to advertise. I have been in this town for about thirty years." I would rather deal with the fellow who advertises and who is going to be here for the next thirty years. I would rather deal with a man who is no newer than a has been.

WHAT WILL THE UNION DO FOR ME?

This question is one of many common every day occurances that officers of locals are asked to answer, and were it not for the ignorance of a vast majority of such questioners, it would no doubt be answered many times rather harshly.

Few of the many new members joining our organization today know what others have had to endure to get the conditions under which we are working in our craft today, feeling no doubt that the present conditions have always prevailed and always will.

Many of the older members know and realize what the organization has done, when they think of the times not so many years ago, when butchers were compelled to go to work at three and four in the morning and work until ten and eleven at night, and it was on account of these conditions the butchers got together to try and educate the public to the fact that such hours were no longer necessary to conduct any business, and this education is still going on at the present time.

The butchers in times past were almost the first ones to go to work and the last ones to quit work at night. Thus leaving their homes before day light and returning from work after dark, and also working more or less time on Sundays, and for such services butchers received $35.00 and $45.00 per month.

These were the conditions before the organization came into existance, and since that time many changes have taken place, and few, is any, localities in the country are keeping up the old time custom. This has been brought through organization and at present time scercely any butchers are working more than ten hours per day and for this are receiving a good living wage and have time for recreation and pleasure.

Many members today are members of other organizations—fraternal and social—and are enjoying life as never before. Some members—it is true—belong to so many other organizations they say there is no time to attend meetings of the union, while the union is the one organization that has made it possible for them to secure the time and money to belong to other organizations.

Do not forget your union—Brother—the union has done much for you and is trying to do more. The question should be: "What are you going to do for the union?"

The union does not do things for you as a member; it only makes conditions possible for you to do things for yourself. Try it.

Born Tailoring Satisfied Your Grandfather

—and forty years from today it will satisfy your grandson.

THE HOUSE of BORN is as young in Spirit as it is old in experience—in this organization the master designers and tailors of the younger generation combine their ideas with the ripened judgment of men who have devoted their lives to the making of clothes to measure.

The Born organization knows what is required to satisfy you in fabric, fashion, fit and workmanship—and they have unequalled facilities for producing garments that will conform with your personal idea of what perfect clothes should be.

Of no less importance is the fact that Born Tailoring costs less than some clothes produced by indifferent workmen, and with doubtful materials.

Why not have Born tailor a suit to your order, with a positive guarantee of complete satisfaction in every detail of fit, material and workmanship?

True Lighting Economy Demands Good Electric Lamps

ELECTRIC LIGHTING BILLS are always higher in the Fall and Winter than during the Spring and Summer months.

EVERYONE KNOWS WHY—they realize that the hours of darkness increase greatly as winter approaches—understand how the short, cloudy days make a great deal of artifical lighting necessary in home, store and factory.

The greatest help toward keeping lighting bills where they ought to be consists of using Mazda lamps.

Most people interested in getting the best illumination at smallest expense already use Mazda lamps.

TRY THEM OUT IF YOU HAVE NOT ALREADY DONE SO.

WELL, WELL WE ALMOST FORGOT THERE WAS ANY SUCH THING AS THIS

The Midwinter League will dish out a nice platter of baseball for the fans who stay at home today. Winehaven and the Cheek Cube will provide the entertainment at Cheek grounds at Tenth and Lucas and the Modern Woodmen and Point Atheletes wil clash over at old man Lang's lot on the west side.

Pinkerton and Rizzo will work for the Winemakers.

If anyone has less "pep" than some of these managers we'll eat our 50 cent shirt. Kindly take note, messers Wilson, Bradley Pinkerton and Schramm.

Haven't heard from Hughie McCauley, Winehaven's moving picture magnate and journalist luminary for some few days. Hughie's ambition in life is to colect some salary he claims is duh him from the sport ed. If Hughie would lay of that 50 cent talk and come down into the jitney class wemight perhaps talk business.

Bill Maloney is going to send his club up against the winner of the league rag. Them assacre wil now begin gentlemen.

Old man Wilson has ben absent from the office for one complete week. Things are sure getting peaceful down our way.

When this bird blows in the boss usually see that the afe is securely locked. Another libel suit.

How much yuh have, Wilson, old kid, $25,000 bucks sufficient?

Remember gentlemen that little box score.

Did fine last week, even though yuh got a cramp during the latter part of the week.

Brick Bats Biffed —BY— ANAW FULSIMP

The Hot Stove League magnates got into action last night and transacted considerable business. The first subject was broached by Holman Tuller, the Famous handsome fan. "Gentlemen," remarked Mr. Tuller, "I have noticed frequently mention in the daily press of Vallejo. What is this—a new disease or a name for a piece of cheese?"

For a moment the assembled delegates were stumped. Several had heard the name but none had ever taken the trouble to investigate its origin. And then one old time resident spoared on the hot seat.

"Feller citizens," he said. "Vallejo is a small village located somewhere in the vicinity of Mare Island. I understood that the people with few exceptions are human beings."

"But hist,' interposed Albert Quincy Childs, "Wassha difference. We're assembled to talk over the baseball situation, not to delve into unknown historical researches."

"Tis true, indeed," continued the old buck", that is what I am coming to.—I understnd that several of the citizens who are rather lose with their spare change are contemplating organizing a baseball team. Perhaps I misunderstood. it might have been a potatoe raising class. At any rate we must investigate.'

"Certainly," contributed Richard Humphrey Greathouse, "I desire to nominate Mr. Wilhelm Emery Luce to make a report at the next meeting."

Mr. Luce's apointment was ratified and the sweet voiced tenor manager of the Elks will get busy and probably unearth some startling statistics.

Mention was also made of Martinez. Whether Joe McNamara and the other rubes of the county seat will venture onto an unknown sea of baseball or whether they will be content to stay home and mow the crops, at which Chuck Wilcox and the other members of the gang are expert has not yet been announced. Perhaps Joe will venture forth to gather in a few more cans, practically every club in the county tying one to Martinez during the season just closed. The canning industry would be very appropriate for the county seat.

A wireless will be despatched to Petaluma to learn whether that burg is still on the map. It is understood that the last high wind blew everything out of the village but Denny J. Healey. Denny was so loaded down with jitneys that the wind had to give it up as an impossible job.

Something is radically wrong. The name of Robert Obidiah David Murphy, handsome Elk center fielder, commonly known as Rod has been missing from this col. for twenty four hours.

Rod was walking down Macdonald avenue yesterday.

A Touching Story.

Among other things, we are thankful that Thanksgiving comes but once a year.

TEAMSTERS FIND THAT UNIONISM SURELY PAYS

"Does unionism pay?" is answered by Secretary-Treasurer Driscoll, of the Boston Milk Drivers' Union writing in the official magazine of the International Brotherhood of Teamsters. The Boston drivers organized in October, 1910. At that time wages averaged $13.50 per week for drivers, and $18 for route foremen. Today, through organization, drivers receive $20 after September 1, 1916. Route foremen receive $20 per week now and will be paid $23 after September 1st next year. A two weeks' vacation with pay during the summer months and a day off every three weeks during the winter months, or 24 days off each year, with pay, are additional proofs of the value of trade unionism.
